"Referring to the report we see by it that by last year's assessment the value of land and improvements was \$469,000, yielding, at 15 cents per \$100, \$703.53. This year the assessment and alone is fixed at \$369,709, just \$99,315 less than the valuation of land and all improvements, consisting of 172 houses at an average value of \$575. Then with a leap an increase of taxes of 25 cents per \$100 is made, to show that a less sum at a greater rate per cent will produce a revenue in excess of last year. Now, what is the condition of Hyattsville?
